

Funder	Project Title	Funding	Institution
Autism Speaks	Cognitive control and social engagement among younger siblings of children with autism	\$0	University of Miami
Autism Speaks	Assessing information processing and capacity for understanding language in non-verbal children with autism	\$113,873	Rutgers, The State University of New Jersey; City University of New York
Autism Speaks	Innovative assessment methods for autism: A proof of principle investigation of "nonverbal" autism	\$72,116	McMaster University
Autism Speaks	Interactions between mothers and young children with ASD: Associations with maternal and child characteristics	\$0	University of Haifa
Center for Autism and Related Disorders	The functions of stereotypy in children with ASD	\$11,095	Center for Autism and Related Disorders (CARD)
Department of Defense	Receptive vocabulary knowledge in low-functioning autism as assessed by eye movements, pupillary dilation, and event-related potentials	\$0	Johns Hopkins University
National Institutes of Health	Developmental social neuroscience in infants at-risk for autism	\$180,659	Yale University
National Institutes of Health	Developmental processes, trajectories, and outcomes in autism	\$292,249	Yale University
National Institutes of Health	Language development and outcome in children with autism	\$321,874	University of Connecticut
National Institutes of Health	Intersensory perception of social events: Typical and atypical development	\$133,861	Florida International University
National Institutes of Health	Social communication phenotype of ASD in the second year	\$249,084	Florida State University
National Institutes of Health	Development of intermodal perception of social events: Infancy to childhood	\$312,573	Florida International University
National Institutes of Health	The development of joint attention after infancy	\$303,992	Georgia State University
National Institutes of Health	Sensory integration and language processing in autism	\$152,394	University of Rochester
National Institutes of Health	Expressive crossmodal affect integration in autism	\$191,367	Oregon Health & Science University
National Institutes of Health	Neural economics of biological substrates of valuation	\$383,750	Baylor College of Medicine
National Institutes of Health	Early language development within the autism spectrum	\$508,490	University of Wisconsin - Madison
National Institutes of Health	Early language development within the autism spectrum (supplement)	\$33,417	University of Wisconsin - Madison
National Institutes of Health	Early language development within the autism spectrum (supplement)	\$27,942	University of Wisconsin - Madison
Simons Foundation	Language learning in autism	\$191,584	Georgetown University
Simons Foundation	Prosodic and pragmatic processes in highly verbal children with autism	\$149,999	President & Fellows of Harvard College
Simons Foundation	Characterizing ASD phenotypes by multimedia signal and natural language processing	\$263,303	Columbia University
