

Funder	Project Title	Funding	Institution
Autism Speaks	Interactions of environment and molecular pathways on brain overgrowth in autism: Maternal inflammation and the PI3/AKT pathway	\$211,200	University of California, Los Angeles
Autism Speaks	Immunobiology in autism	\$32,000	University of California, Davis
Autism Speaks	Maternal risk factors for autism in the Nurses Health Study II – pilot study	\$60,000	Harvard School of Public Health
Autism Speaks	Maternal dietary factors and risk of ASDs	\$32,000	Harvard Medical School
Autism Speaks	Influence of the maternal immune response on the development of autism	\$150,000	University of Medicine & Dentistry of New Jersey
Autism Speaks	Influence of maternal cytokines on activation of the innate immune system as a factor in the development of autism	\$32,000	University of Medicine & Dentistry of New Jersey
Autism Speaks	Influence of maternal cytokines during pregnancy on effector and regulatory T helper cells as etiological factors in autism	\$110,000	University of Medicine & Dentistry of New Jersey
Autism Speaks	Maternal supplementation of folic acid and function of autism gene synaptic protein Shank3 in animal model	\$110,000	Baylor College of Medicine
Autism Speaks	Early developmental risk factors for autism in a national birth cohort	\$60,000	Turku University
Autism Speaks	Assisted reproductive treatments and risk of autism	\$20,000	Institute of Psychiatry, King's College London
Centers for Disease Control and Prevention	Immune biomarkers in serum and newborn dried blood spots	\$0	Centers for Disease Control and Prevention
National Institutes of Health	Project 1: Environmental epidemiology of autism	\$181,428	University of California, Davis
National Institutes of Health	Social determinants of the autism epidemic	\$805,000	Columbia University
