

Funder	Project Title	Funding	Institution
Autism Speaks	Evaluation of the immune and physiologic response in children with autism following immune challenge	\$327,972	University of California, Davis
Autism Speaks	Interactions of environment and molecular pathways on brain overgrowth in autism: Maternal inflammation and the PI3/AKT pathway	\$211,200	University of California, Los Angeles
Autism Speaks	Etiology of autism risk involving MET gene and the environment	\$219,700	University of California, Davis
Autism Speaks	Immunobiology in autism	\$32,000	University of California, Davis
Autism Speaks	Vaccination with regression study	\$16,258	Kaiser Permanente Georgia
Autism Speaks	Influence of maternal cytokines during pregnancy on effector and regulatory T helper cells as etiological factors in autism	\$127,499	University of Medicine & Dentistry of New Jersey
Autism Speaks	Influence of the maternal immune response on the development of autism	\$127,499	University of Medicine & Dentistry of New Jersey
Autism Speaks	Influence of maternal cytokines on activation of the innate immune system as a factor in the development of autism	\$0	University of Medicine & Dentistry of New Jersey
Autism Speaks	Vulnerability phenotypes and susceptibility to environmental toxicants: From organism to mechanism	\$0	University of Rochester
Autism Speaks	Genome-wide association study of autism characterized by developmental regression	\$127,458	Cincinnati Children's Hospital Medical Center
Centers for Disease Control and Prevention	Epidemiologic studies of reproductive and developmental outcomes – Denmark	\$400,000	Aarhus University
National Institutes of Health	Psychosis and autoimmune diseases in Denmark	\$148,389	Johns Hopkins University
National Institutes of Health	Brain glutamate concentrations in autistic adolescents by MRS	\$1,224	Mount Sinai School of Medicine
