

Funder	Project Title	Funding	Institution
Autism Speaks	Vitamin D status and autism spectrum disorder: Is there an association?	\$85,961	University of California, Davis
Autism Speaks	Molecular and environmental influences on autism pathophysiology	\$127,500	University of California, Los Angeles
Autism Speaks	Genetic and epigenetic interactions in a mouse model for autism	\$60,000	David Geffen School of Medicine at University of California, Los Angeles
Autism Speaks	Epigenetics, hormones and sex differences in autism incidence	\$0	University of Virginia
Autism Speaks	Effect of oxytocin receptor inhibitor (atosiban) during the perinatal period and prevalence of autism spectrum disorders	\$131,871	Hebrew University
Autism Speaks	Assisted reproductive treatments and risk of autism	\$60,000	Institute of Psychiatry, King's College London
Centers for Disease Control and Prevention	Vaccine safety datalink thimerosal and autism study	\$20,857	Centers for Disease Control and Prevention (CDC)
Department of Defense	Immunopathogenesis in autism: Regulatory T cells and autoimmunity in neurodevelopment	\$106,609	East Carolina University
Department of Defense	Toxicant-induced autism and mitochondrial modulation of nuclear gene expression	\$0	Texas A&M University
National Institutes of Health	Prenatal exposure to polyfluoroalkyl compounds in the EMA study	\$272,062	Kaiser Foundation Research Institute
National Institutes of Health	The CHARGE Study: Childhood Autism Risks from Genetics and the Environment (supplement)	\$1,212,792	University of California, Davis
National Institutes of Health	Investigating gene-environment interaction in autism: Air pollution X Genetics	\$297,117	University of Southern California
National Institutes of Health	The CHARGE Study: Childhood Autism Risks from Genetics and the Environment (supplement)	\$405,700	University of California, Davis
National Institutes of Health	Autism in a fish eating population	\$172,491	University of Rochester
