

Funder	Project Title	Funding	Institution
Autism Science Foundation	Prelinguistic symptoms of autism spectrum disorders in infancy	\$30,000	University of California, Los Angeles
Autism Science Foundation	Enhancing understanding and use of conversational rules in school-aged speakers with autism spectrum disorders	\$0	Yale University
Autism Speaks	Integrated play groups: Promoting social communication and symbolic play with peers across settings in children with autism	\$127,497	San Francisco State University
Autism Speaks	A sibling mediated imitation intervention for young children with autism	\$0	Michigan State University
Autism Speaks	Evaluating behavioral and neural effects of social skills intervention for school-age children with autism spectrum disorders	\$0	Mount Sinai School of Medicine
Autism Speaks	Early intervention for children screened positive for autism by the First Year Inventory	\$0	University of North Carolina at Chapel Hill
Autism Speaks	Social cognition and interaction training for adolescents with high functioning autism	\$0	University of North Carolina at Chapel Hill
Autism Speaks	Evidence-based cognitive rehabilitation to improve functional outcomes for young adults with autism spectrum disorders	\$100,000	University of Pittsburgh
Autism Speaks	Enhancing inter-subjectivity in infants at high risk for autism	\$0	IWK Health Centre/Dalhousie University; University of Toronto; University of Alberta; The Hospital for Sick Children
Department of Defense	Improving synchronization and functional connectivity in autism spectrum disorders through plasticity-induced rehabilitation training	\$0	University of California, San Diego
Department of Defense	A randomized clinical trial of cognitive enhancement therapy for adults with autism spectrum disorders	\$1,412,388	University of Pittsburgh
Health Resources and Services Administration	Predictors of effects of propranolol on language & connectivity in autism	\$184,288	University of Missouri
National Institutes of Health	Neurocognitive markers of response to treatment in autism	\$76,500	University of California, Davis
National Institutes of Health	1/3 CBT for anxiety disorders in autism: Adapting treatment for adolescents	\$285,075	University of California, Los Angeles
National Institutes of Health	1/3-Multisite RCT of early intervention for spoken communication in autism	\$547,162	University of California, Los Angeles
National Institutes of Health	2/3 CBT for anxiety disorders in autism: Adapting treatment for adolescents	\$236,579	University of South Florida
National Institutes of Health	3/3 CBT for anxiety disorders in autism: Adapting treatment for adolescents	\$41,570	University of Miami
National Institutes of Health	3/3-Multisite RCT of early intervention for spoken communication in autism	\$815,668	Kennedy Krieger Institute
National Institutes of Health	ACE Network: Early pharmacotherapy guided by biomarkers in autism	\$1,000,000	Wayne State University
National Institutes of Health	2/3-Multisite RCT of early intervention for spoken communication in autism	\$395,531	University of Rochester

Funder	Project Title	Funding	Institution
National Institutes of Health	3/3-Atomoxetine placebo and parent training in autism	\$277,198	University of Rochester
National Institutes of Health	Neural and behavioral outcomes of social skills groups in children with ASD	\$290,251	Mount Sinai School of Medicine
National Institutes of Health	2/3-Atomoxetine placebo and parent training in autism	\$361,873	Ohio State University
National Institutes of Health	1/3-Atomoxetine placebo and parent training in autism	\$272,700	University of Pittsburgh
National Institutes of Health	The comparison of three behavioral therapy approaches for children with autism	\$50,664	University of Rhode Island
National Institutes of Health	Biomarkers in Autism of Aripiprazole and Risperidone Treatment (BAART)	\$619,865	Medical University of South Carolina
National Institutes of Health	ACE Center: Risk and protective factors in the development of associated symptoms in autism	\$169,876	University of Washington
Simons Foundation	The mirror neuron system in children with autism	\$59,078	University of Washington
National Science Foundation	HCC: Collaborative research: Social-emotional technologies for autism spectrum disorders	\$175,362	Massachusetts Institute of Technology
National Science Foundation	HCC: Collaborative research: Social-emotional technologies for autism spectrum disorders	\$46,087	The Groden Center, Inc.
