

Funder	Project Title	Funding	Institution
Department of Defense - Autism Research Program	Improving synchronization and functional connectivity in autism spectrum disorders through plasticity-induced rehabilitation training	\$0	University of California, San Diego
Department of Defense - Autism Research Program	A randomized clinical trial of cognitive enhancement therapy for adults with autism spectrum disorders	\$0	University of Pittsburgh
Autism Science Foundation	Prelinguistic symptoms of autism spectrum disorders in infancy	\$0	University of California, Los Angeles
Autism Speaks	Integrated play groups: Promoting social communication and symbolic play with peers across settings in children with autism	\$0	San Francisco State University
Autism Speaks	Effects of self-generated experiences on social cognitive development in young children with autism	\$0	Kennedy Krieger Institute
Autism Speaks	Evidence-based cognitive rehabilitation to improve functional outcomes for young adults with autism spectrum disorders	\$100,000	University of Pittsburgh
Health Resources and Services Administration	Predictors of effects of propranolol on language & connectivity in autism	\$188,378	University of Missouri
National Institutes of Health	1/3-Multisite RCT of early intervention for spoken communication in autism	\$541,313	University of California, Los Angeles
National Institutes of Health	Neurocognitive markers of response to treatment in autism	\$75,983	University of California, Davis
National Institutes of Health	3/3-Multisite RCT of early intervention for spoken communication in autism (supplement)	\$323,097	Kennedy Krieger Institute
National Institutes of Health	3/3-Multisite RCT of early intervention for spoken communication in autism	\$516,493	Kennedy Krieger Institute
National Institutes of Health	ACE Network: Early pharmacotherapy guided by biomarkers in autism	\$1,498,245	Wayne State University
National Institutes of Health	3/3-Atomoxetine placebo and parent training in autism	\$274,428	University of Rochester
National Institutes of Health	2/3-Multisite RCT of early intervention for spoken communication in autism	\$392,336	University of Rochester
National Institutes of Health	2/3-Atomoxetine placebo and parent training in autism	\$356,865	The Ohio State University
National Institutes of Health	1/3-Atomoxetine placebo and parent training in autism	\$269,971	University of Pittsburgh
National Institutes of Health	The comparison of three behavioral therapy approaches for children with autism	\$49,369	University of Rhode Island
National Institutes of Health	Biomarkers in Autism of Aripiprazole and Risperidone Treatment (BAART)	\$651,465	Medical University of South Carolina
National Institutes of Health	ACE Center: Risk and protective factors in the development of associated symptoms in autism	\$168,117	University of Washington
Organization for Autism Research	Randomized clinical trial of mind reading and in vivo rehearsal for children with HFASDs	\$10,000	Canisius College
Simons Foundation	The mirror neuron system in children with autism	\$29,539	University of Washington
National Science Foundation	HCC: Collaborative research: Social-emotional technologies for autism spectrum disorders	\$0	Massachusetts Institute of Technology
National Science Foundation	HCC: Collaborative research: Social-emotional technologies for autism spectrum disorders	\$0	The Groden Center, Inc.
