

Funder	Funder	Project Title	Funding	Institution
United Kingdom	National Institute for Health Research	Improving outcomes for people with autism spectrum disorders by reducing mental health problems	\$0	South London and Maudsley NHS Foundation Trust
United Kingdom	Engineering and Physical Sciences Research Council	A Robot Training Buddy for adults with ASD	\$1,013,907	Heriot-Watt University
United Kingdom	Economic and Social Research Council	One step ahead: Prediction of other people's behavior in healthy and autistic individuals.	\$0	Plymouth University
United Kingdom	Medical Research Council	The role of chromatin remodelling factors in cerebellar development and autism	\$0	King's College London
United Kingdom	National Institute for Health Research	Mapping and evaluating Specialist Autism Team service models.	\$0	University of York
United Kingdom	Engineering and Physical Sciences Research Council	WE ARE ABLE, DISPLAYS and PLAY: Fostering Collaboration, Creativity and Communication between Disadvantaged Children	\$0	University of Central Lancashire
United Kingdom	Economic and Social Research Council	The forgotten half million: New methods for mapping mental health outcomes of adults with Autism Spectrum Conditions in the UK.	\$289,829	Coventry University
United Kingdom	National Institute for Health Research	Randomised controlled trial of improvisational music therapy for children with autism spectrum disorders: UK arm of the TIME-A study	\$0	Imperial College London
United Kingdom	National Institute for Health Research	Development and validation of a new instrument and assessment protocol for assessing autism in young children with severe visual impairment	\$0	Great Ormond Street Hospital for Children NHS Foundation Trust
United Kingdom	Medical Research Council	What are the clinical and educational risk factors for poor academic outcomes in children with Autistic Spectrum Disorder?	\$0	King's College London
United Kingdom	Medical Research Council	ERA-NET NEURON: The Gut Microbiome in Neuroinflammation and Neurodevelopmental Disorders	\$0	Imperial College London
United Kingdom	National Institute for Health Research	The Paediatric Autism Communication Trial - Generalised (PACT-G)	\$2,421,382	Central Manchester University Hospitals NHS Foundation Trust
United Kingdom	Economic and Social Research Council	Gender Differences in Autism Spectrum Disorders in a Population-Based Twin Sample: testing three hypotheses for male preponderance.	\$769,963	King's College London
United Kingdom	Economic and Social Research Council	Reconceptualising word learning difficulties in children with autism using novel empirical and computational methods.	\$215,913	Lancaster University
United Kingdom	Economic and Social Research Council	Memory consolidation in typical and atypical development	\$1,450,930	University of York
United Kingdom	Economic and Social Research Council	Access to justice for children with autism spectrum disorders	\$0	City, University of London
United Kingdom	Medical Research Council	The Development of Social, Attention, and Perception Abilities in Typical and At-risk Infants	\$0	Birkbeck, University of London

Funder	Funder	Project Title	Funding	Institution
United Kingdom	Medical Research Council	MICA: Correction of behavioural, circuit and cellular deficits in rat models of ID/ASD	\$1,560,632	University of Edinburgh
United Kingdom	National Institute for Health Research	People with autism detained within hospitals: defining the population, understanding aetiology, and improving care pathways.	\$0	Hertfordshire Partnership University NHS Foundation Trust
United Kingdom	Medical Research Council	An integrative approach to unravelling the aetiology of ASD and ADHD in early adulthood: neurophysiology and development in twins	\$898,164	King's College London
United Kingdom	Medical Research Council	Characterising mice syntenic for human 16p11.2 duplications or deletions in relation to schizophrenia and autism	\$809,239	University of Glasgow
United Kingdom	National Institute for Health Research	A feasibility study of using an immersive virtual reality environment to reduce anxiety in children with autism spectrum disorder	\$0	Northumberland, Tyne and Wear NHS Foundation Trust
United Kingdom	Economic and Social Research Council	Innovative technologies for autism: critical reflections on digital bubbles	\$0	University of Southampton
United Kingdom	Economic and Social Research Council	New directions for UK autism research	\$0	University College London
United Kingdom	Economic and Social Research Council	Delineating self-other processes in social cognition: Insights from neuropsychology and brain stimulation	\$401,177	University of Cambridge
United Kingdom	National Institute for Health Research	Autism-spectrum disorders: treating co-morbid social anxiety disorder with adapted cognitive behaviour therapy	\$0	King's College London
United Kingdom	National Institute for Health Research	Feasibility study of an RCT to investigate the effectiveness of a humanoid robot to support social skills development in children with an Autism Spectrum Disorder.	\$341,742	Hertfordshire Community NHS Trust
United Kingdom	Economic and Social Research Council	The cognitive requirements of cumulative culture: experiments with typically developing and autistic people	\$0	University of Exeter
United Kingdom	Innovate UK	Development of a new drug for the treatment of Autism caused by Fragile X Syndrome	\$0	Sentinel Oncology (United Kingdom)
United Kingdom	Engineering and Physical Sciences Research Council	Characterising Motor Impairments In Autism Using Imitation And Computational Techniques	\$120,044	University of Manchester
United Kingdom	Engineering and Physical Sciences Research Council	Clasp: Digital Tactile Anxiety Management for the Health Internet of Things	\$0	Lancaster University
United Kingdom	Economic and Social Research Council	Metacognition and Mindreading: One system or two?	\$0	University of Kent
