

Funder	Funder	Project Title	Funding	Institution
United Kingdom	Autistica	Toolkit for managing anxiety in autism	\$0	King's College London
United Kingdom	National Institute for Health Research	Improving outcomes for people with autism spectrum disorders by reducing mental health problems	\$0	South London and Maudsley NHS Foundation Trust
United Kingdom	Economic and Social Research Council	Metacognition and Mindreading: One system or two?	\$0	University of Kent
United Kingdom	Engineering and Physical Sciences Research Council	Clasp: Digital Tactile Anxiety Management for the Health Internet of Things	\$0	Lancaster University
United Kingdom	Engineering and Physical Sciences Research Council	Characterising Motor Impairments In Autism Using Imitation And Computational Techniques	\$120,044	University of Manchester
United Kingdom	Innovate UK	Development of a new drug for the treatment of Autism caused by Fragile X Syndrome	\$0	Sentinel Oncology (United Kingdom)
United Kingdom	Economic and Social Research Council	The cognitive requirements of cumulative culture: experiments with typically developing and autistic people	\$0	University of Exeter
United Kingdom	Engineering and Physical Sciences Research Council	A Robot Training Buddy for adults with ASD	\$1,013,907	Heriot-Watt University
United Kingdom	Economic and Social Research Council	One step ahead: Prediction of other people's behavior in healthy and autistic individuals.	\$0	Plymouth University
United Kingdom	Autistica	Factors related to vulnerability and mental health problems in autism	\$56,980	University of Cambridge
United Kingdom	Medical Research Council	The role of chromatin remodelling factors in cerebellar development and autism	\$0	King's College London
United Kingdom	Wellcome Trust	The pathophysiology of Autism: developmental trajectories and neuronal networks underlying pathological behaviour in mouse models	\$142,450	Cardiff University
United Kingdom	Wellcome Trust	A cross-syndrome approach to atypical development: Modelling developmental trajectories in children with autism spectrum disorder, attention deficit and hyperactivity disorder and callous-unemotional traits.	\$0	King's College London
United Kingdom	National Institute for Health Research	Mapping and evaluating Specialist Autism Team service models.	\$0	University of York
United Kingdom	Wellcome Trust	Towards understanding and treatment of MeCP2-related disorders.	\$4,008,547	University of Edinburgh
United Kingdom	Engineering and Physical Sciences Research Council	WE ARE ABLE, DISPLAYS and PLAY: Fostering Collaboration, Creativity and Communication between Disadvantaged Children	\$0	University of Central Lancashire
United Kingdom	Economic and Social Research Council	The forgotten half million: New methods for mapping mental health outcomes of adults with Autism Spectrum Conditions in the UK.	\$289,829	Coventry University
United Kingdom	National Institute for Health Research	Randomised controlled trial of improvisational music therapy for children with autism spectrum disorders: UK arm of the TIME-A study	\$0	Imperial College London

Funder	Funder	Project Title	Funding	Institution
United Kingdom	Wellcome Trust	Biological markers for the development of autism related phenotypes in genetic mouse models	\$0	Cardiff University
United Kingdom	Wellcome Trust	Biological markers for the development of autism related phenotypes in genetic mouse models	\$0	Cardiff University
United Kingdom	National Institute for Health Research	Development and validation of a new instrument and assessment protocol for assessing autism in young children with severe visual impairment	\$0	Great Ormond Street Hospital for Children NHS Foundation Trust
United Kingdom	Medical Research Council	What are the clinical and educational risk factors for poor academic outcomes in children with Autistic Spectrum Disorder?	\$0	King's College London
United Kingdom	Medical Research Council	ERA-NET NEURON: The Gut Microbiome in Neuroinflammation and Neurodevelopmental Disorders	\$0	Imperial College London
United Kingdom	National Institute for Health Research	The Paediatric Autism Communication Trial - Generalised (PACT-G)	\$2,421,382	Central Manchester University Hospitals NHS Foundation Trust
United Kingdom	Economic and Social Research Council	Gender Differences in Autism Spectrum Disorders in a Population-Based Twin Sample: testing three hypotheses for male preponderance.	\$769,963	King's College London
United Kingdom	Economic and Social Research Council	Reconceptualising word learning difficulties in children with autism using novel empirical and computational methods.	\$215,913	Lancaster University
United Kingdom	Autistica	Mental health difficulties in people with autism and intellectual disability	\$0	University of Warwick
United Kingdom	Economic and Social Research Council	Memory consolidation in typical and atypical development	\$1,450,930	University of York
United Kingdom	Economic and Social Research Council	Access to justice for children with autism spectrum disorders	\$0	City, University of London
United Kingdom	Autistica	Incredible Years in autism	\$213,600	Bangor University
United Kingdom	Medical Research Council	The Development of Social, Attention, and Perception Abilities in Typical and At-risk Infants	\$0	Birkbeck, University of London
United Kingdom	Medical Research Council	MICA: Correction of behavioural, circuit and cellular deficits in rat models of ID/ASD	\$1,560,632	University of Edinburgh
United Kingdom	Wellcome Trust	Loss of GABAergic cells and night-time hyperactivity in zebrafish mutants of autism risk genes	\$2,849	University College London
United Kingdom	National Institute for Health Research	People with autism detained within hospitals: defining the population, understanding aetiology, and improving care pathways.	\$0	Hertfordshire Partnership University NHS Foundation Trust
United Kingdom	Wellcome Trust	Characterisation of a cortical FoxP1	\$2,137	Cardiff University

Funder	Funder	Project Title	Funding	Institution
United Kingdom	Medical Research Council	An integrative approach to unravelling the aetiology of ASD and ADHD in early adulthood: neurophysiology and development in twins	\$898,164	King's College London
United Kingdom	British Academy	Autism spectrum disorder: continuous or dichotomous?	\$0	University of Sheffield
United Kingdom	Medical Research Council	Characterising mice syntenic for human 16p11.2 duplications or deletions in relation to schizophrenia and autism	\$809,239	University of Glasgow
United Kingdom	Autistica	Mental Health fellow 1: Why children with autism behave differently, including the role of family and wider environmental factors	\$0	King's College London
United Kingdom	Autistica	Mental Health fellow 2: Social anxiety in autism	\$0	King's College London
United Kingdom	Autistica	Mental Health fellow 3: Identifying chemical imbalances to develop autism-specific mental health treatments	\$0	King's College London
United Kingdom	Wellcome Trust	Getting the Balance Right: Adaptation to sudden environmental changes in postural control in adults with Autism Spectrum Disorder (ASD)	\$2,849	Queen's University Belfast
United Kingdom	Autistica	Stigma protection in autism	\$44,444	University of Bedfordshire
United Kingdom	Autistica	Ageing Project 2: Clinical diagnostic services, and assessment measures	\$0	Newcastle University
United Kingdom	National Institute for Health Research	A feasibility study of using an immersive virtual reality environment to reduce anxiety in children with autism spectrum disorder	\$0	Northumberland, Tyne and Wear NHS Foundation Trust
United Kingdom	Autistica	Establishing an ASD Research Family Register through UK paediatricians	\$0	Newcastle University
United Kingdom	Autistica	Ageing Project 1: Adult autism spectrum cohort	\$0	Newcastle University
United Kingdom	Economic and Social Research Council	Innovative technologies for autism: critical reflections on digital bubbles	\$0	University of Southampton
United Kingdom	Autistica	Assessing the Deutsche Bank autism workplace internship	\$12,443	University College London
United Kingdom	Economic and Social Research Council	New directions for UK autism research	\$0	University College London
United Kingdom	Autistica	ARCH Seminar	\$712	King's College London
United Kingdom	Wellcome Trust	The development of neuronal circuits controlling sleep/wake behaviour in zebrafish models of autism.	\$0	University College London
United Kingdom	Autistica	Suicide Summit	\$26,994	Newcastle University
United Kingdom	Wellcome Trust	Exploring Diagnosis: Autism and the Neurodiversity Movement.	\$0	University of Exeter

Funder	Funder	Project Title	Funding	Institution
United Kingdom	Economic and Social Research Council	Delineating self-other processes in social cognition: Insights from neuropsychology and brain stimulation	\$401,177	University of Cambridge
United Kingdom	National Institute for Health Research	Autism-spectrum disorders: treating comorbid social anxiety disorder with adapted cognitive behaviour therapy	\$0	King's College London
United Kingdom	National Institute for Health Research	Feasibility study of an RCT to investigate the effectiveness of a humanoid robot to support social skills development in children with an Autism Spectrum Disorder.	\$341,742	Hertfordshire Community NHS Trust
United States	Simons Foundation	Measuring the size of face regions in female and males	\$58,035	University of York
United States	Autism Speaks	EU-AIMS	\$114,605	King's College London
United States	Simons Foundation	Role of Caspr2 (CNTNAP2) in brain circuits - Project 1	\$0	King's College London
United States	Autism Speaks	Adapting and piloting WHO's Parent Skills Training in a low income setting: a case study in Ethiopia	\$50,000	King's College London
United States	Simons Foundation	Validation of a diffusion imaging biomarker of autism	\$129,047	University of Oxford
United States	Simons Foundation	Identifying autism-associated signaling pathways regulated by CHD8 in vivo	\$62,500	King's College London
