

## Draft IACC Safety RFI Questions for IACC Safety Subcommittee Review

### Please consider:

- What kinds of questions will be most useful to the subcommittee?
- How will you potentially use the information gathered via each question?
- What volume of information you want to receive? (How many pages from each of ~50-200 respondents?)
- What number of questions will be manageable for users?
- 

### Draft questions

1. What safety concerns are the most urgent for people with ASD and their families?
2. What are your top three concerns related to keeping your child or adult son/daughter with ASD safe?

**Comment [DHHS1]:** What demographic information will be collected from the respondents? It would be helpful to have a sense of age and gender of family member with autism, whether family member lives at home, and geographic distribution (state, urban vs rural)

**Deleted:** and family

3. [What are your top three concerns related to keeping your other family members safe?](#)
4. What situations or settings in your community have been particularly challenging [to manage safety concerns?](#)
5. Have your concerns changed as your child [or adult son/daughter with ASD](#) has gotten older? [In what way?](#)
6. Have you or [any member of](#) your family ever felt [seriously](#) physically threatened by your child [or adult son/daughter with ASD?](#) [How often has this occurred?](#)
7. What resources would be helpful to you to keep your child [or adult/son daughter with ASD](#) and your family safe?
