

# **Subcommittee for Basic and Translational Research Question 3**

---

**Conference Call  
September 18, 2012  
4:00 p.m. Eastern**

**Conference Call Access:**

Phone: (888) 455-5419

Access Code: 9404105

# **Subcommittee for Basic and Translational Research Question 3**

## **Agenda**

**4:00 PM**

**Roll Call and Brief Introductions**

**Lyn Redwood RN, MSN**

Coordinator Question 3 Update, IACC

**4:05**

**Overview of Process to Update the  
Plan as Proposed by the Subcommittee**

**4:15**

**Proposed Schedule and Assignments**

- **Review of Proposed Division of Work for External Experts and IACC members**
- **Discussion of Proposed Update Activities and Timeline**
- **Review Workshop Schedule**
- **Questions and Comments**

**5:00 PM**

**Adjournment**

# Strategic Plan Update Process

---

- For each question of the Strategic Plan, 3 external experts will work with 3 subcommittee members
- Updates on “What do we know?” and “What do we need?” sections only
  - Use the 2010 IACC Portfolio Analysis Report and the 2011 Summary of Advances in ASD Research to help answer these questions
  - Include funded and unfunded gaps
  - Input from NIH program officers as needed
  - Approximately 2 pages total per question (~ 2400 words)
- Volunteer leader from each group will reach out to experts in the next week to coordinate the Update process

# Deliverables

---

- Updates due to OARC by Monday, October 22<sup>nd</sup>
- Present and discuss Updates at Strategic Planning Workshop on October 30<sup>th</sup>
- Incorporate feedback and finalize Updates for the 2012 Strategic Plan for ASD Research to be submitted to Congress

# **Question 3 (Risk Factors): What caused this to happen and can it be prevented?**

---

## **External Experts**

- **Isaac Pessah, Ph.D.**
- **Matt State, M.D., Ph.D.**
- **Craig Newschaffer, Ph.D.**

## **IACC Members**

- **Lyn Redwood**
- **Matt Carey**
- **Cindy Lawler (for Linda Birnbaum)**

# Template for Updates

---

- Use the “2011 Addendum” sections of the 2011 Strategic Plan as a guide
  - Pages 10, 18, 29, 39, and 63 in the PDF document

For each question, address (in general):

- What are key findings or discoveries and why are they important?
- What have we learned from the 2011 Summary of Advances and the 2010 Portfolio Analysis?
- Newly funded research that addresses gap areas
- What gap areas remain and how might they be addressed?
- What are the needs of the community?

# Proposed Schedule and Assignments

---

- Each external expert provides a brief summary overview of the suggested topics below based on their area of expertise by Monday October 1<sup>st</sup>
  - What are key findings or discoveries since last Strategic Plan update (2011-2012) and why are they important?
  - What have we learned from the 2011 Summary of Advances and the 2010 Portfolio Analysis?
  - Newly funded research that addresses gap areas

# Proposed Schedule and Assignments

---

---

- Each IACC member will provide a brief summary of the items below by Monday October 8<sup>th</sup> based on external expert summaries, input from NIH Program Officers, portfolio analysis reports and IACC public comments.
  - What gap areas remain and how might they be addressed?
  - What are the needs of the community?

# Proposed Schedule and Assignments

---

---

- IACC members will work with OARC to blend input from both the external experts and IACC members in to one cohesive document by October 22<sup>nd</sup> that will be presented at the October 30<sup>th</sup> workshop.
- Majority of the work will be conducted by email, second conference call may be necessary prior to workshop.

# Workshop Schedule

---

- Morning will be spent with brief overviews of the updates with the entire work group (external experts and IACC subcommittee members) including discussion and feedback
- Break out session to discuss the need for edits based on comments
- Full work group reconvenes to discuss decisions and next steps

# Subcommittee for Basic and Translational Research Question 3

---

## Questions and Comments
