

## Request for Public Comment on IACC 2016 Strategic Plan for ASD – List of Themes

<b>Question 7: Research Infrastructure and Surveillance</b>	
<b>Infrastructure (Services)</b>	Improve services infrastructure
<b>Collaboration/Coordination (Services)</b>	Increase collaboration and coordination among services providers
<b>Collaboration/Coordination (Research)</b>	Increase collaboration and coordination of research including interdisciplinary research
<b>Research Dissemination/Translation</b>	Increase the dissemination of research, and the translation of research into practice
<b>Workforce Development (Research)</b>	Need greater development of the research workforce
<b>ASD Surveillance</b>	Need more and improved surveillance of ASD prevalence, including by race/ethnicity, gender and age
<b>Infrastructure (Research)</b>	Need research infrastructure, i.e. databases, research and clinical trial policies
<b>Autistic Voices/Perspectives</b>	Research should include the voices and participation of individuals with autism and their families
<b>Endorse Current Priorities</b>	Current priorities are appropriate/important (research infrastructure needs, ASD surveillance research, research workforce development, dissemination of research information, and strengthening collaboration)
<b>Prioritize Services</b>	Prioritize services and interventions rather than research
